

Group work 1

Based on current experiences of your municipalities, please discuss and response to the following questions.

1. What are the current statuses of health and well-being of the population in your municipalities?

Number of population (categorized by age, sex)	
Number of Unemployment	
Average Education	
Average Income/household	
Life expectancy at birth	
Prevalence of traffic injuries	
Rate of school drop outs of people age 10-17	
Number of people living with chronic illnesses (diabetes, hypertension, cancer, HIV, etc.) or living with disabilities	

2. What are the key achievements that municipalities have done for better health and well-being of the city dwellers?

Mandate of Municipalities (listed below are examples, please add or deleted as necessary)	Key achievements	Who benefit from the work in terms of accessibility, connectivity, and affordability	Gaps (project incomplete, or not accessible, affordable, or utilized by specific groups)
Water supply (improved water quality, quantity, regularity)			
Electricity supply/ connectivity			
Road and traffic lights (in good condition/ function)			
Pedestrian spaces (walkable & accessible for all)			
Public transportation (+ using clean energy)			
Public space for play -ground and social gathering			
Housing (for the poor)			
Waste management			
Etc.			

Beyond the mandates/ cross-sector collaboration	Key activities	Beneficiaries	Collaborating agencies
Support children education			
Job creation for youth			
Designated public health works			
Support agriculture Or aquatic/marine agriculture			

3. What is your vision of the “healthy cities” or “healthy islands” from current conditions? How will your vision be realized by the people, communities, and policy makers?

Statement of Vision:

Strategic actions to realize the vision:

- 1.
- 2.
- 3.

Current Partnerships:

Potential Partnerships:
